

Cabinet Designs Policies and Practices

QUOTES

Quotes are provided free of charge upon request, and are typically for cabinetry, countertops, and installation only, unless otherwise specified. Door/drawer pulls are not included in the quote. If the customer wishes to select pulls from either [Cabinet Designs](#) or another vendor, installation can be arranged, but may result in an additional charge.

FLOOR PLANS AND DRAWINGS

Drawings related to a quote are the property of [Cabinet Designs](#). Floor plan and perspective drawings will be submitted to the home owner upon receipt of the design fee, which is 15% of the project total. This fee will be credited toward the final purchase price when [Cabinet Designs](#) is awarded the job.

PAYMENT

A deposit in the amount of 60% of the project total is required to have cabinets and other materials ordered. The balance on cabinetry is due upon receipt of cabinets in our warehouse. The final balance is due upon the completion of installation.

Payment is accepted in the form of cash, check, or credit card. Add 2% processing charge for credit card payment.

INSTALLATION

Installation consists of the installation of all materials supplied by [Cabinet Designs](#). It does not include appliances, painting, flooring, or tear-out of existing cabinetry. Tear-out of existing cabinetry is billed at \$35 per hour, per man. Any electrical or plumbing work associated with the installation is the responsibility of the home owner. [Cabinet Designs](#) will cut holes for sinks and plumbing fixtures in countertops supplied by us.

The home owner is responsible for the disposal of all materials removed from the job site (old cabinetry, countertops, etc.) as a result of installation. [Cabinet Designs](#) can arrange for removal and disposal of old cabinets and countertops for an additional fee. Our own debris (boxes, wood scraps, etc.) will be removed from the job site as part of the installation process.

RELATIONSHIPS

[Cabinet Designs](#) may, upon customer request, recommend individuals to assist the customer with non-cabinet/countertop related aspects of a job. However, we do not maintain business relationships with these individuals and will not be held responsible for their work.
